weeks ago and pushed it to a successful

ville, Kentucky, a few weeks ago to work
with his brother in a creamery near that
city, has returned home as he did not

dominance of colored society or the depressing
effect it has on wages.

The marriage of Henry J. Williams, of
Webberville, to Miss Minnie Kent, of Lay-
ton Corner, took place Wednesday even-
ing at the home of the bride's uncle, on
Higgins street, in the presence of a small
number of friends. Mr. and Mrs. Williams
will reside in Webberville. Mr. Williams
was a member of Company G and has a
goodly number of friends in this city who
extend congratulations and best wishes to
him and to his bride.

An oncoming attack of typhoid fever was
not enough to compel the postponement of
the marriage of Dr. T. Edward Carmody and
Miss Jennie McBride, and they were
married last Tuesday altho the wedding
took place a little earlier in the day than it
had been announced for and, as they wrote
home, they took their wedding trip in an
ambulance with the hospital for their destina-
tion. The latest reports are that Dr.
Carmody is getting along nicely. The many
friends of both Dr. and Mrs. Carmody unite
in the hope for the Doctor's speedy and
complete recovery from the attack of ty-
phoid fever, and congratulate them that the
illness was not severe enough to prevent the
wedding ceremony from taking place.

The members of the Disciple church in
this city celebrated the eleventh anniversary
of the dedication of their church building
Saturday afternoon with a big church din-
ner at which the history of the organization
was recalled to the memory of the members
and a general social time was had. The
festivities were continued into the evening
when an informal program consisting of re-
ports of the various officers and a talk by
Rev. S. A. Strawn was given. The society
appears to be in the best of shape in
every way. It has a membership of two
hundred thirty, and the seating capacity of
the church building, three hundred, is often
taxed to accommodate those who come.
The Sunday school is also in a prosperous
condition under the leadership of Fred Love.

Owosso people had this week, and are
still having, opportunities galore to pur-
chase tickets for entertainments, and three
of them have been concerts, beginning with
the opening number of the Y. M. C. A. Star
course given by the Blatchford Kava-
naugh and "Roney's Boys" Concert Com-
pany, Wednesday evening. Tonight oc-
curs the Von Sternberg piano recital with
the reception following in the Baptist
church, a concert of the very highest artistic
merit by one of the finest pianists in
America. The third concert within a week
will be the concert to be given by the Ferry
Ladies quartette in the Congregational
church next Tuesday evening. Although this
last event is by local talent Owosso
people who are judges know that it will be
a treat of a rare kind. Every one of the
four ladies is a soloist and the work which
has been given to preparation for this con-
cert ensures a close approach to perfec-
tion in the quartet work.

expects to try his luck at deer hunting for a
day or two.

L. O. Underwood has purchased the in-
terest of G. L. Dick in the meat business
of Dick & Underwood and will continue

business trip in Ohio and Pennsylvania and
left again Tuesday to attend the annual
meeting at Shortsville, N. Y., of the Empire

The Ann Arbor north train going north
now leaves the Owosso station at 11:15 in-
stead of 11:23 and the junction at 11:23 in-
stead of 11:30 as before, the only other
change in the time of trains at Owosso is
the morning train going south, which
leaves two minutes later at 9:03 instead of
9:01. Trains 101 and 102 running on Sun-
days between Toledo and Howell have been
discontinued. The change went into effect
Sunday.

Charles Thorn has purchased the retail
cigar business of Geo. H. Grahame, in the
Keeler block, where he has been engaged
for several years as clerk and as travelling
salesman for Mr. Grahame. In connection
with this work he will also continue to have
charge of Mr. Grahame's wholesale busi-
ness in this city. In spite of the memory
of the howling wind, a telephone advertisement
of the "hole in the wall" Charles has a
large number of friends among the business
men and will no doubt make a fine success
in his new venture.

Work is being pushed along rapidly at
the Owosso Carriage Company's plant and
the big building is rising fast. The heavy
beams for the support of the second and
third floors are in position over the greater
part of the new portion and a large part of
the joists for those floors are already in
position. The brick walls are also going
up in good shape. The walls of the old
part have been partly torn away at the top
and corners to make the union with the
new perfect and to permit the building of
the additional story on their top.

Crowe & Payne always have something
so say which is worth the attention of every
farmer and user of machinery or owner of a
horse. This week they take a half page
in THE TIMES to tell you have
done in the last thirteen months and what
they propose to do during the coming sea-
son for you, especially in the line of Mc-
Cormick machinery. Both members of this
firm are hustlers, and in the person of Mr.
Graham, block agent for the McCormick
company, they have another hustler asso-
ciated with them in the business. And the
best of it is that their reliability is just as
much to be depended on as is their hustling
ability.

The Castree Shaw Co. has at last an-
nounced a change in its name and business
which has been under consideration for a
long time and has been a practical certainty
for the last two or three months. By the
change the company enters into a more
profitable line of business, and is saved the
expense of advertising or of keeping men
on the road, as one firm takes its entire
output. The company now becomes the
Vincent Valve Co., with the same officers
as before: J. J. Schurtz, of White Pigeon,
president; A. D. Whipple, vice president;
E. C. Bacon, secretary and treasurer.
Some new machinery has been added to the
plant and the company will limit its output
to the Vincent valve which it will manu-
facture in various sizes for water, gas and
steam mains or pipes.

Murray & Terbush, whose names and
business are familiar to every Times read-
er celebrated the sixteenth anniversary of
their first day's business in Owosso on Sat-
urday last. The firm came here from Fen-
ton in 1884 and met with such good success
that within a short time after opening up
for business the late George Thomas was
prevailed upon to erect the large block
corner of Washington and Main streets for
their use. The results have always amply
justified the move and the firm not only
occupied that double store but branched out
with an up-to-date shoe store which after
running for a time at a little distance from
the present store was finally located in the
store immediately adjoining the large store
on the north and a large archway was cut
thru between the two. Since this improve-
ment the firm has had constantly in stock
everything which a man wears, while the
latest and best in ladies' footwear has also
always found place on their shelves. THE
TIMES extends its congratulations to the
firm on the completion of fifteen years of
prosperous and increasing business and
hopes that it may be found in Owosso fif-
teen years from the present time in still
larger quarters and doing a still larger busi-
ness.
